| 1. | Myra King | <p>Complemented CHA for newly remodeled units at Trumbull Park.</p> <p>Will Trumbull Park residents have an option for another cable provider other than ComCast?</p> <p>Public transportation limited for Trumbull Park which also affects vacancy rate. Can CHA look into this matter.</p> | <p>Comments Noted.</p> <p>There is one other cable provider, Wide Open West (W.O.W), that has a franchise agreement with the City of Chicago to provide cable where Trumbull is located. The CHA is more than willing to negotiate a right-of-entry agreement to allow WOW to provide service to CHA properties in its cable region.</p> <p>Once they begin to offer cable service in the City of Chicago, AT&T will be another option for Trumbull residents.</p> <p>CHA has reached out to the Chicago Transit Authority and will respond accordingly.</p> |
